See NPN Warning on page 07.

AANWYSINGS:

Vir afronding op veldweiding moet ongeveer 2.7% van die liggaams-massa per dier per dag na 'n aanpas-singsperiode van 14 dae gevoer word.

Onder voerkraaltoestande kan 'n volledige beesvetmestingsrantsoen verkry word deur 750 kg **Nutri Bees Sentra Supermeel** en 250 kg hoë kwaliteit ruvoer te vermeng. Voer dan *ad lib*.

Dit kan ook apart saam met ruvoer in 'n kafeteriastelsel in die voerkraal gevoer word. Voer beide **Nutri Bees Sentra Supermeel** en ruvoer *ad lib*.

Hierdie produkte bevat geregistreerde vee-medikamente. Verwys na die aangehegte sakkaartjie vir die korrekte aanwending van die produk.

Let wel (Namibië en Botswana): Uitvoerformulasies vir die produk bevat geen vee-medikamente nie.

Beraamde innames van die onder-skeie afrondrantsoene per dag (kg):

INSTRUCTIONS:

For finishing on grazing, approximately 2.7% of the body weight per animal per day should be fed after an adaptation period of 14 days.

Under feedlot conditions a complete cattle fattening ration can be obtained by mixing 750 kg of **Nutri Beef Sentra Super Meal** and 250 kg of high-quality roughage and fed *ad lib*.

It can also be fed separately in combination with roughage in a cafeteria system in the feedlot. Feed both **Nutri Beef Sentra Super Meal** and roughage *ad lib*.

These products contain registered veterinary medicaments. Refer to the attached bag label for the correct usage of the product.

Please note (Namibia and Botswana): Export formulations for the product contain no veterinary medicaments.

Approximate intakes of the different finishing rations per day (kg):

Liggaamsmassa / Body weight (kg)	Volledig / Complete	Kafeteriastelsel / Cafeteria system	Ruvoer / Roughage	Veldafronding / Finishing on natural grazing
