

(V 28669; NFF 3731)

NUTRI LEK / LICK KRUIP / CREEP

NUTRI FEEDS

KLAS: PROTEÏEN/ENERGIE EN MINERALE SUPPLEMENT VIR HERKOUERS

Nutri Lek Kruip is 'n klaar gemengde kruiplek vir herkouers met 20% proteïen wat ook energie en minerale verskaf vir die jong dier se ontwikkelingsbehoefes.

- Dit kan aan kalwers gevoer word vanaf een maand ouderdom en omdat dit 'n lek is word vermorsing beperk;
- Dit bevat lae vlakke van NPN aangesien die jong kalf se rumen nog ontwikkel en aangepas word by NPN-voeding en die ontwikkeling van die ensiem nodig vir ureumvertering (urease);
- Dit is smaaklik, bevat voldoende graan ten einde rumenontwikkeling te stimuleer asook hoë vlakke van kwaliteit proteïen met 'n beperkte NPN inhoud om speenmassas te verhoog.

CLASS: PROTEIN/ENERGY AND MINERAL SUPPLEMENT FOR RUMINANTS

Nutri Lick Creep is a ready-mixed creep lick for ruminants with 20% protein that also supplies energy and minerals for the young animal's development needs.

- It can be fed to calves from one month old, and because it is a lick, wastage is limited;
- It contains low levels of NPN, as the young calf's rumen is still developing and is adapting to NPN feed, and the development of the enzyme is required for urea digestion (urease);
- It is palatable, contains sufficient grain to stimulate rumen development, as well as high levels of quality protein and a limited NPN content to increase weaning weight.

SAMESTELLING 40 kg sak

(g/kg)

COMPOSITION 40 kg bag

<i>Proteïen (min)</i>	200	<i>Protein (min)</i>
<i>Ureum (maks)</i>	20	<i>Urea (max)</i>
<i>Ander NPN bronne (maks)</i>	40	<i>Other NPN sources (max)</i>
<i>Totale proteïen vanaf NPN (maks)</i>	50.02%	<i>Total protein from NPN (max)</i>
<i>Vog (maks)</i>	120	<i>Moisture (max)</i>
<i>Kalsium (min/maks)</i>	12 / 25	<i>Calcium (min/max)</i>
<i>Fosfor (min)</i>	10	<i>Phosphorus (min)</i>
<i>Energie MJ ME/kg (min) (beraam)</i>	8.2	<i>Energy MJME/kg (min) (estimated)</i>

Sien NPN Waarskuwing op bladsy 06.

See NPN Warning on page 07.

AANWYSINGS:

Daaglikse inname:

- 185 - 400 g per skaap
- 985 - 3 000 g per bees

INSTRUCTIONS:

Daily intake:

- 185 - 400 g per sheep
- 985 - 3 000 g per animal for cattle
