# NUTRI LEK / LICK PRODUKSIE / PRODUCTION

## KLAS: PROTEÏEN, ENERGIE EN MINERALE SUPPLEMENT VIR HERKOUERS

**Nutri Lek Produksie** is 'n proteïen, energie en minerale lek vir skape en beeste.

- Dit bevat voldoende hoë kwaliteit proteïen, hoë vlakke van graan (energie), asook minerale ten einde produksie van herkouters op swak kwaliteit weiding in die laat winter te stimuleer;
- Weens die insluiting van melassestroop is dit smaaklik en verleen dit hoë innames;
- Dit word as sulks gevoer en geen verdere vermenging is nodig nie.

## CLASS: PROTEIN, ENERGY AND MINERAL SUPPLEMENT FOR RUMINANTS

**Nutri Lick Production** is a protein, energy and mineral lick for sheep and cattle.

- It contains sufficient high-quality protein, high levels of grain (energy), as well as minerals in order to stimulate production of ruminants on poor-quality grazing in the late winter;
- Because of the inclusion of molasses syrup it is palatable and results in a higher intake;
- It is fed as such and no further mixing is required.

### SAMESTELLING 40 kg sak

(g/kg)

Proteïen (min)	250
Ureum (maks)	35
Ander NPN bronne (maks)	45
Totale proteïen vanaf NPN (maks)	54.25%
Kalsium (min/maks)	12 / 40
Fosfor (min)	10
Vog (maks)	12
Energie MJ ME/kg (min) (beraam)	8.50

### COMPOSITION 40 kg bag

Protein (min)	
Urea (max)	
Other NPN sources (max)	
Total protein from NPN (max)	
Calcium (min/max)	
Phosphorus (min)	
Moisture (max)	
Energy MJ ME/kg (min) (estimated)	

**Sien NPN Waarskuwing op bladsy 06.**

**See NPN Warning on page 07.**

### AANWYSINGS:

#### Daaglikse inname:

- 180 - 400 g per skaap;
- 940 - 2 200 g per bees.

### INSTRUCTIONS:

#### Daily intake:

- 180 - 400 g per sheep;
- 940 - 2 200 g per animal for cattle.
